Summary

Web developer with hands-on experience building and maintaining production-ready web applications. Skilled in React, Next.js, and Tailwind CSS, with a solid understanding of back-end development using Node.js and MySQL. Passionate about creating responsive, user-friendly interfaces and solving complex problems. Eager to contribute to high-quality, scalable projects while continuing to grow my development skills.

Skills

Skills: Next.js, Tailwind CSS, TypeScript, React, JavaScript, Node.js, HTML, CSS, MySQL, Git, GitHub, Figma, Jest, Postman, Problem Solving, Attention to Details, Creative Thinking, Responsive Design, UI/UX Design

Projects

OverClockedX -
- Built an e-commerce platform for tech products, integrating an AI assistant to assist with product compatibility and purchasing decisions.
- Developed using React, Next.js, Tailwind CSS, Typescript, Node.js, and MySQL for a responsive, user-friendly experience across all devices.
- Enabled a seamless online shopping experience, allowing customers to easily browse and purchase products from anywhere.

OverClockedX Admin Panel -
- Designed and developed the official administrative dashboard for the OverClockedX e-commerce platform, enabling store administrators to efficiently manage inventory, orders, promotions, and analytics.
- Provides a modern, responsive interface to track sales performance, identify top-selling products, and make data-driven decisions.
- Developed using React, Next.js, Tailwind CSS, Typescript, Node.js, and MySQL, ensuring an intuitive and seamless experience for managing store operations.

Windows XP-Inspired Portfolio -
- Recreated the Windows XP interface with meticulous attention to detail, blending nostalgic design with modern web functionality.
- Focused on UI/UX design to deliver an interactive, intuitive user experience.
- Built with Next.js, React, and Tailwind CSS for a fast, responsive experience with smooth interactions across all devices.
- Showcases my front-end skills, demonstrating my ability to combine creative design with modern web technologies to deliver an interactive and engaging user experience.

Instagang (Instagram Clone) -
- Recreated Instagram from scratch using vanilla JavaScript to enhance my skills in DOM manipulation and client-side development.
- Implemented features like user authentication, posting images, liking, commenting, and story sharing with a UI that closely mimics the original Instagram design.
- Developed a responsive, interactive experience with HTML, CSS, vanilla javascript, Node.js and MySQL, showcasing my ability to build dynamic web applications without relying on external libraries or frameworks.

Education

General De Jesus College - May 2025
· Bachelor of Science Information Technology · San Isidro, 3106 Nueva Ecija
